

兔抗 APMAP 多克隆抗体

中文名称：兔抗 APMAP 多克隆抗体

英文名称： Anti-APMAP rabbit polyclonal antibody

别名： BSCv; C20orf3

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： APMAP

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

C20orf3, also known as APMAP (adipocyte plasma membrane-associated protein), is a 416 amino acid single-pass type II membrane protein that belongs to the strictosidine synthase family and is thought to play a role in adipocyte differentiation. The gene encoding C20orf3 maps to human chromosome 20, which houses over 600 genes some of which are associated with Creutzfeldt-Jakob disease, a myotrophic lateral sclerosis, spinal muscular atrophy, ring chromosome 20 epilepsy syndrome and Alagille syndrome. Additionally, chromosome 20 contains a region with numerous genes which are thought important for seminal production and may be potential targets for male contraception.

Applications:	ELISA, WB, IHC
Name of antibody:	APMAP
Immunogen:	Synthetic peptide of human APMAP
Full name:	adipocyte plasma membrane associated protein
Synonyms :	BSCv; C20orf3
SwissProt:	Q9HDC9
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyroid cancer and Human brain
IHC Recommend dilution:	25-100
WB Predicted band size:	46 kDa
WB Positive control:	Human placenta and fetal liver tissue,231 cells
WB Recommended dilution:	500-2000
