

小鼠抗 ACTB(HRP-Conjugate)单克隆抗体

中文名称： 小鼠抗 ACTB(HRP-Conjugate)单克隆抗体

英文名称： Anti-ACTB(HRP-Conjugate) mouse monoclonal antibody

别 名： actin beta; BRWS1; PS1TP5BP1

相关类别： 内参抗体

储 存： 冷冻 (-20°C)

宿 主： Mouse

抗 原： ACTB(HRP-Conjugate)

反应种属： Human, Mouse, Monkey, Rat, Hamster, Plant

标 记 物： HRP

克隆类型： Mouse Monoclonal

技术规格

Background:	This gene encodes one of six different actin proteins. Actins are highly conserved proteins that are involved in cell motility, structure, integrity, and intercellular signaling. The encoded protein is a major constituent of the contractile apparatus and one of the two non muscle cytoskeletal actins that are ubiquitously expressed. Mutations in this gene cause Baraitser-Winter syndrome 1, which is characterized by intellectual disability with a distinctive facial appearance in human patients. Numerous pseudogenes of this gene have been identified throughout the human genome.
Applications:	WB
Name of antibody:	ACTB(HRP-Conjugate)

Immunogen:	Fusion protein of human ACTB
Full name:	actin beta
Synonyms:	BRWS1; PS1TP5BP1
SwissProt:	P60709
WB Predicted band size:	42 kDa
WB Positive control:	COS7, CHO-K1, C6, 3T3 and Hela cell lysates
WB Recommended dilution:	1000-5000
